Journeyman Plumber – Job Description

Position Summary:
The Journeyman Plumber is responsible for independently performing skilled plumbing work in the installation, maintenance, and repair of plumbing systems in residential and commercial properties. This position requires strong technical knowledge, leadership abilities, and adherence to safety and building code standards.

Key Responsibilities:

- Install, repair, and maintain water supply lines, drainage systems, gas lines, and plumbing fixtures
- Read and interpret blueprints, schematics, and building plans
- Diagnose plumbing issues and determine appropriate repair solutions
- Perform new construction rough-ins and finish plumbing installations
- Conduct system testing and inspections to ensure proper function
- Ensure compliance with local plumbing codes and safety regulations
- Supervise and mentor apprentices and helpers
- Communicate professionally with customers, contractors, and inspectors
- Maintain tools, equipment, and service vehicles

Skills & Qualifications:

- Valid Journeyman Plumber license (state-specific)
- 3–5+ years of plumbing experience (or as required by state regulations)
- Strong knowledge of plumbing codes and safety standards

- Ability to work independently with minimal supervision
- Proficient with hand tools, power tools, and diagnostic equipment
- Strong troubleshooting and problem-solving skills
- Ability to lift 50+ lbs and work in confined spaces
- Valid driver’s license and reliable transportation

Preferred Qualifications:

- Experience in both residential and commercial plumbing
- Backflow certification
- Gas line certification
- OSHA certification
- Strong customer service skills
